

5 FACTS

to impress at the dinner table:

1

Every minute a garbage truck full of plastic goes into the ocean.

2

If all the people in the U.S. swapped their disposable plastic bottle for a reusable one, that would save 719 million lbs of plastic! That's 2.2 lbs of plastic per person, per year.

3

There is a plastic soup three times the size of Texas floating around in the Pacific Ocean.

4

Globally, 1 million single-use plastic water bottles are sold every minute!

5

Even cosmetic products can contain microplastics, to get you extra clean, and those end up in the sink and then the ocean...
